FINANCIAL STRENGTH BEHIND THE POLICY

Nothing else assures a homebuyer's peace of mind quite like **title insurance**.

The choice is yours!

Ask for an Old Republic National Title Insurance Company policy.

The protection of your owner's policy is only as strong as the company underwriting the policy. Since 1907, Old Republic National Title Insurance Company has been insuring residential and commercial properties across America. Weathering every storm, we protect property rights through good times and bad.

Old Republic Title's parent Company, Old Republic International Corporation, is one of the nation's 50 largest shareholder-owned insurance businesses.

Old Republic Title Insurance Group is the third largest title insurance group in the nation.* We offer unsurpassed financial strength ratings, a strong balance sheet and the strongest claims-paying ability of all the national underwriters.**

Strength and stability for over a century.

* Based on total premiums written, as reported in 2018 market share data compiled by the American Land Title Association (ALTA).

** Based on combined Form 9 Annual Statements for all insurers within each family, as compiled by ALTA December 31, 2018.

YOUR HOME IS YOURS.

TITLE INSURANCE HELPS KEEP IT THAT WAY.

WOULD YOU EVER THINK YOU COULD **LOSE YOUR HOME** BECAUSE **ANOTHER PERSON** LEGALLY HAS A RIGHT TO IT? THAT THOUGHT MIGHT NEVER CROSS YOUR MIND, BUT **PERHAPS IT SHOULD.**

There are many problems that could affect your title, including: tax liens, forged signatures in the chain of title, recording errors, title search errors and claims by missing heirs and/or an ex-spouse. In a nutshell, **TITLE INSURANCE PROTECTS FROM FUTURE LOSS IF A COVERED CLAIM AGAINST YOUR PROPERTY IS MADE.**

THERE ARE TWO TYPES OF TITLE INSURANCE:

①

AN OWNER'S POLICY protects you and provides assurance that your title company will stand behind you, if a **covered title problem** arises after you buy a home.

②

A LOAN POLICY protects the lender for the amount of the loan. If you only have a Loan Policy, **you are not protected** if a problem materializes with your title.

YOUR HOME IS YOUR MOST VALUABLE MATERIAL ASSET. IF THE POTENTIAL LOSS OF YOUR HOME ARISES FROM A COVERED TITLE PROBLEM, AN OWNER'S POLICY WILL PROTECT YOU.

Title insurance is about protection; protecting **your home, your family, and yourself**. It is about **preventing a mishap**, or lessening the severity of its impact. Unlike most insurance policies, title insurance is a **one-time-only fee**. An owner's policy will protect you as long as you and your heirs have an interest in the property.

SELECTING A REAL ESTATE AGENT

Millions of homes are sold each year, and each transaction is unique. With recent changes to contract forms and addendum, home selling has become more complex than it was five or ten years ago. Using a real estate agent who has experience and training in such fields as real estate marketing, financing, negotiating and closing, can be very beneficial for a home seller. A real estate agent can assist you in pricing your home according to market conditions, give you tips on showing the home, and assist you with negotiations when an offer is presented.

PRICING TO SELL

Once you're ready to put your home on the market, it's important to price it to sell quickly and close to your initial list price. Many factors contribute to the value of your home. Understanding them and enlisting the help of a real estate agent can help you price your home to sell.

CURRENT MARKET VALUE

The best way to assess the current market value of your home is to ask a real estate agent to conduct a Comparative Market Analysis (CMA). The CMA is usually free and helps determine the fair market value of your home based on evaluation of recently sold homes in your neighborhood that match your home's age, features and size.

CONSIDERATIONS WHEN SETTING THE PRICE

Location – A desirable location (proximity to desirable amenities) adds the most value.

Seller Needs – Is there a need to sell quickly? Is the sale contingent on another sale?

Season – More homes are listed between spring and summer, creating more competition.

Condition of the Home – Does the home have strong curb appeal or attractive features?

Other Factors – Current interest rates, economic conditions, crime rates, etc.

COMMON TERMS

Days on Market (DOM) – The number of days a property has been listed on the market. A higher DOM can signal an unrealistic sales price.

Inventory – The number of homes for sale on the Multiple Listing Service (MLS). A small inventory indicates a high demand; therefore, higher prices.

Seller's Market – A real estate market characterized by small inventories and short DOM. It's common for multiple offers to be made on properties, sometimes exceeding the list price.

Buyer's Market – Occurs when sales slow and inventory accumulates. This market is characterized by high DOM and falling sales prices, giving buyers greater opportunities.

Balanced Market – Usually a transitional phase between a Seller's and Buyer's Market when neither party has an advantage over the other.

Median Sales Price – The midpoint between the most expensive house and least expensive house sold in an area during a specific time.

Price Discount – The difference, usually expressed as a percentage, between the initial list price for a home and the final sales price.

STAGING AND SHOWING YOUR HOME

Everyone knows the importance of making a good first impression. Staging your home highlights its best features. Keeping it neat and clean at all times also makes your home more appealing to prospective buyers, who can drop by at a moment's notice.

TIPS FOR MAXIMIZING INTEREST IN YOUR HOME

Gender-Neutral Master Suite: The master bedroom should appeal to both genders. Try to eliminate any decor that may be too gender-specific.

Furniture Placement: Arrange furniture to showcase the shape of the room and emphasize space.

Power of Paint: Need to make a room appear larger than it actually is? Paint that room and the room adjacent to it the same color, creating the illusion of one large space.

Kitchen: The kitchen is a major focal point of most homes. Update, replace or paint cabinets, drawers, appliances, hardware, etc. to enhance appeal.

Depersonalize: Prospective buyers want to see your home, not your photos or personal mementos. Remove as many of these items as possible, which will also eliminate clutter.

Curb Appeal: Unfortunately, a book is often judged by its cover. Maintain the exterior of your home (lawn, landscaping, walkways, lighting, etc.) and keep it as clean as the interior.

Declutter: By keeping your home clean and organized, you automatically make it appear larger and more welcoming.

Aroma: Try to refrain from cooking any strong-smelling foods, such as fish. Instead, bake some cookies or fill your home with fresh flowers for a pleasant scent.

Lighting: Don't be afraid to fill your home with natural light; the brightness tends to improve both atmosphere and mood.

Temperature: Maintain a comfortable temperature so prospective buyers feel at ease touring your home.

Privacy: Be sure to give prospective buyers time alone with their real estate agent to address any candid questions they may have.

EMAIL SCAMS TARGET CLOSING FUNDS

Email phishing scams attempt to trick people into clicking a link, opening an attachment or responding to a message so criminals can exploit personal information. The Federal Trade Commission and the National Association of REALTORS® have warned consumers of an email phishing scam in which hackers compromise the email accounts of buyers and/or sellers, pose as a trusted real estate agent or title insurance company, and attempt to fool their targets into wiring closing funds into the hacker's own account.

We are committed to protecting our clients, and taking security measures to prevent unauthorized access to our network. Criminals know secure networks are difficult to access, so instead, they target consumers' popular web-based email, which is more vulnerable to cyber attacks.

THE SCAM

Once hackers gain access to a buyer or seller's unsecure email account, they look for the source of an upcoming financial transaction (e.g. abcagent.com). Hackers use this information to register a fake domain name that mimics the domain name of the legitimate source, making spelling changes so subtle that most people would never notice (e.g. abcagent.com). The hackers then use the fake domain name to email false wire transfer instructions to their target. If the consumer responds with financial information, he or she could lose significant sums of money.

EASY TIPS FOR AVOIDING EMAIL PHISHING SCAMS

1. Be wary of emails that are unusual, unexpected or require a change in routine. Look carefully for grammar or spelling mistakes, and be leery of those that use threats if swift action is not taken.
2. Avoid conveying sensitive information through unsecure email accounts or websites, and be aware that information you share on social networks can be used by scammers.
3. Do not click on links in emails. Instead, hover your mouse over a link to view its true web address. If it's different than what displays in the email, beware.
4. Create "fake" answers to password recovery questions; "real" answers can be discovered. Write down the false answers to help you remember them.
5. If anything in an email – even one from a trusted source – seems suspicious, call the sender using a previously known or verifiable phone number. Never reply to the email or information in the message.
